Report No.

25X1

Country: Poland
Subject: Resumption of Broadcasts by Secret Radio Station
Date Acquired: Nov 1948
Date Distr: 8 Dec 1948

The following is taken from the bulletin "Inside Poland" No 36 dated 18 Nov 48. This publication is compiled in the US by a member of the Polish National Democratic Party on his own initiative. He received the information from his own sources and those of the Inter-Catholic Press Agency, most of whom are in England. The Agency assumes no responsibility for the contents of this bulletin but does consider it trustworthy and accurate. The distribution list of each issue of several hundred copies is unknown.

1. After several months of silence, a secret Polish radio station renewed its broadcasts in the latter part of October. Each broadcast contains the following announcements:
2. "Poland in Fight Speaking. We are broadcasting at 4 pm Polish time on the 19 meter band, and at 11 pm on the 30 meter band. We are broadcasting irregularly and are interrupting our broadcasts without warning in case of outside interferences."
3. "Free Poland is fighting for a true independence; for the withdrawal from our country of the Soviet occupants and their puppets, who use illegally the title of Polish authorities; for the restoration of the cities of Lwow and Wilno and the remaining eastern lands; for the preservation of the present western frontier with Wroclaw and Szczecin as a just compensation for the crimes committed by the Germans in Poland; for a true Christian and Polish civilization connected in all aspects with the West; for a real social justice and a healthy democratic system."
4. The broadcasts are divided into three parts; 1. Political news from the world connected with Polish affairs, 2. News from Poland, 3. Polish life abroad. The program begins and ends with the oldest Polish national anthem, the Song of Bogurodzica (Mother of God).
5. On 18 October, the radio gave addresses of secret police prisons and torture chambers in Warsaw and Poznan, naming also the henchmen in charge, mostly Soviet officers, and warning them that "vengeance is near".
